Part 3 Creating a signage

The goal of this exercise is to depict subjects along the road in a less formal and more creative way. You have to select 4 subjects from the list and create a small system of 4 road signs based on the template provided. You are encouraged to personalize and experiment the opportunity to play with meaning. You are allowed to cross boundaries of edge and alignment and even expand the sign space into three dimensions. The functional aspect of the design becomes secondary to personal expression.

Please select 4 subjects:
